Lesson 1

Draw lines to connect the dots, starting at the number 1.
Color the pictures of a spider and a scorpion.
Note: There are two separate sets of numbers.

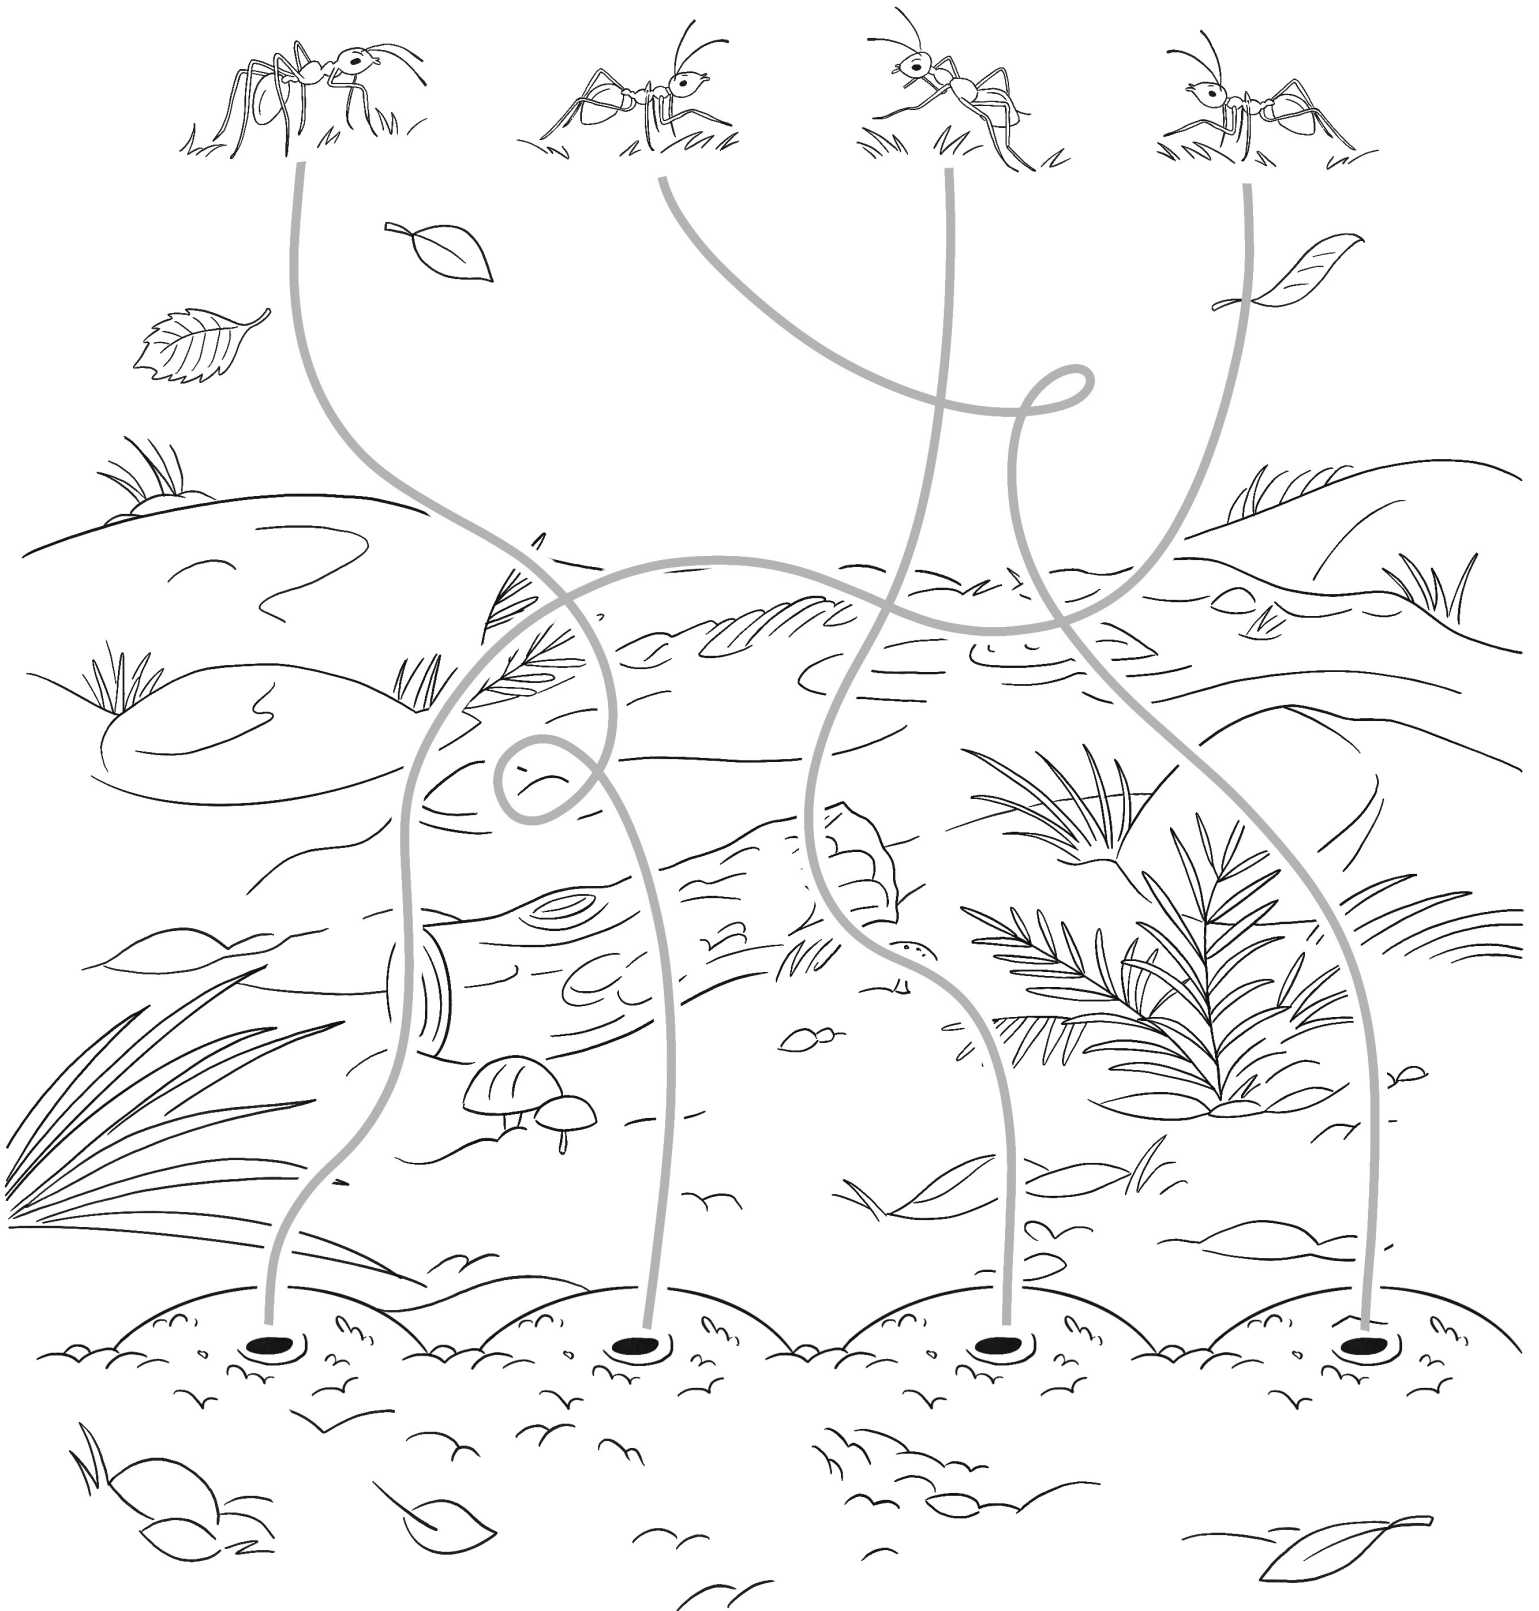

Cross out the pictures in the keys as you find them in the pictures. Color the pictures.

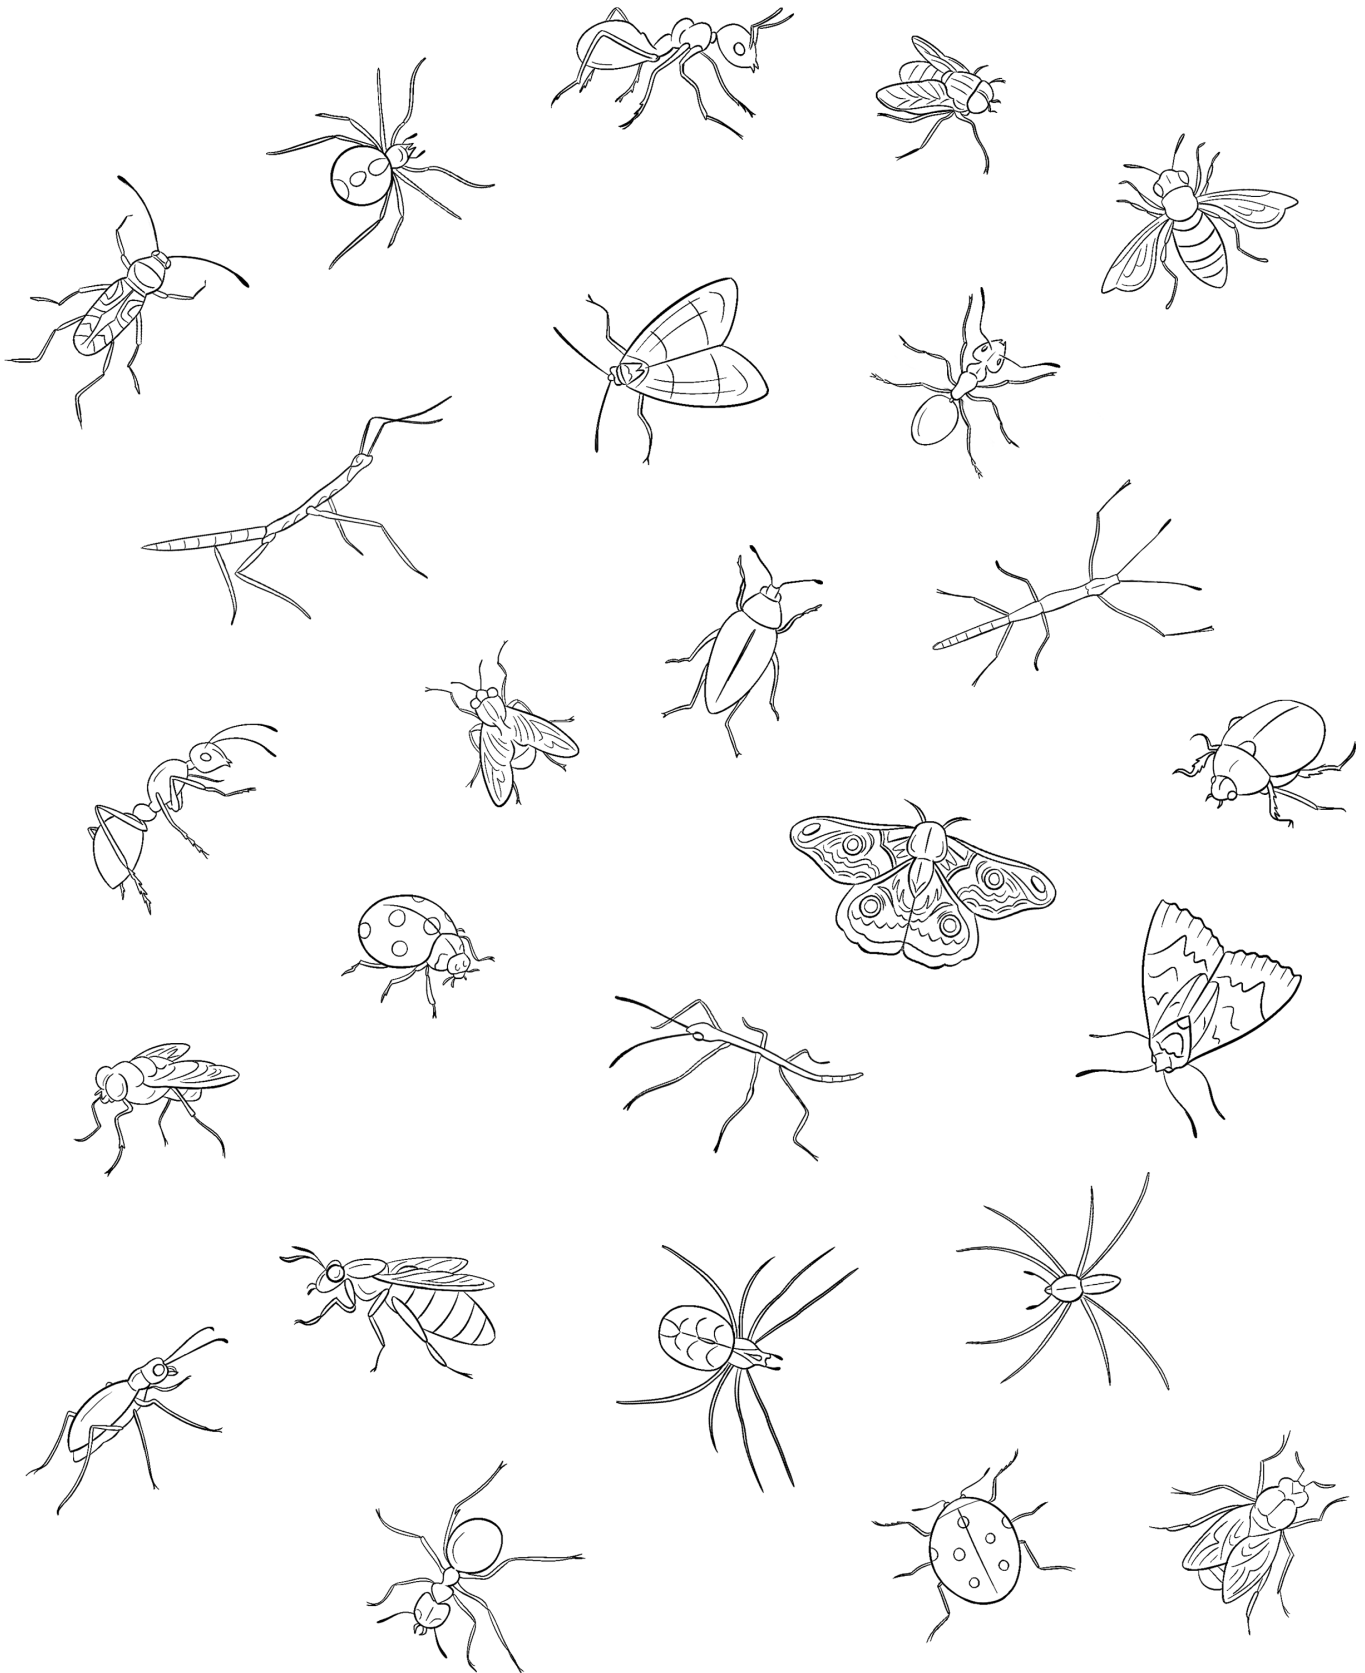

Lesson 6

Trace the lines from the leaf-cutter ants to their nest. Color the picture.

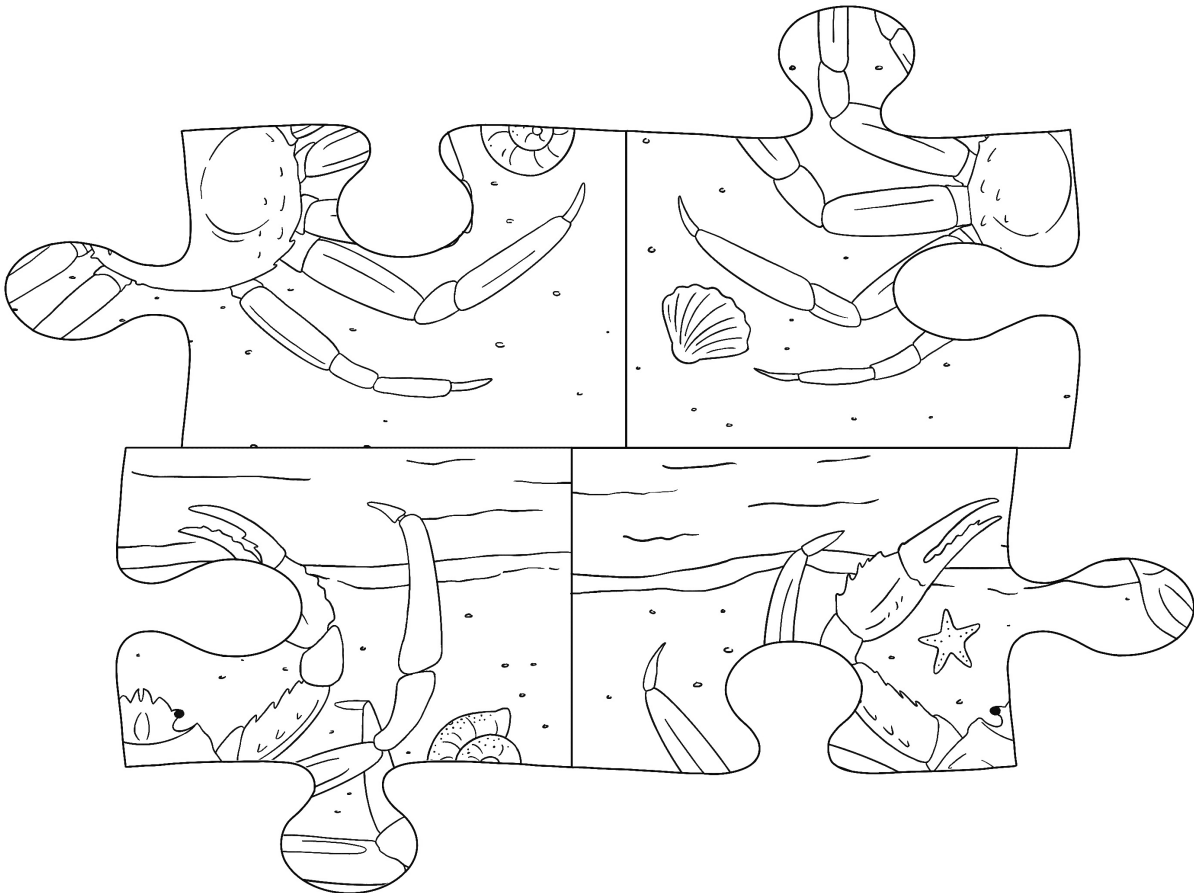

Color or circle only the ants.

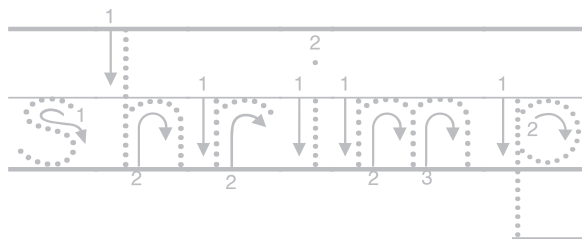

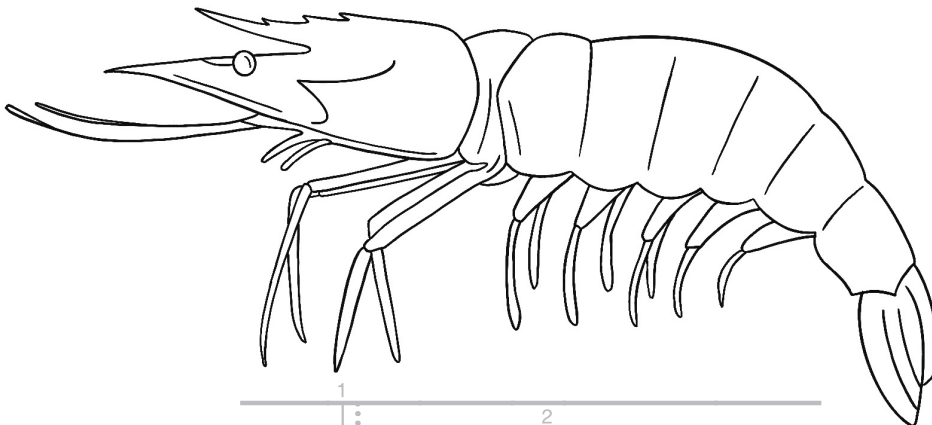

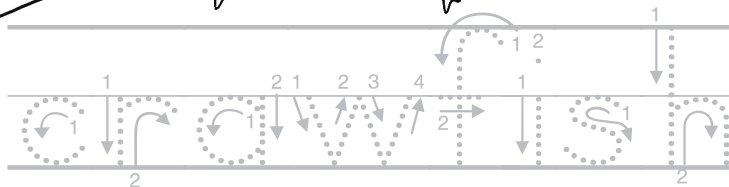

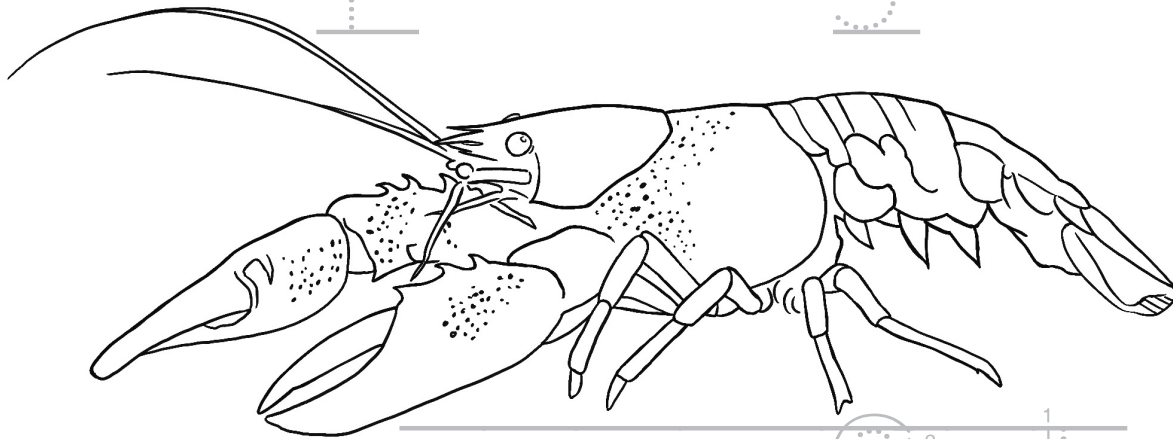

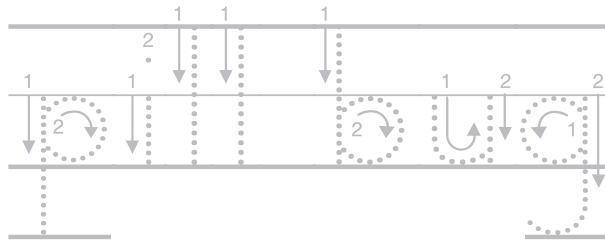

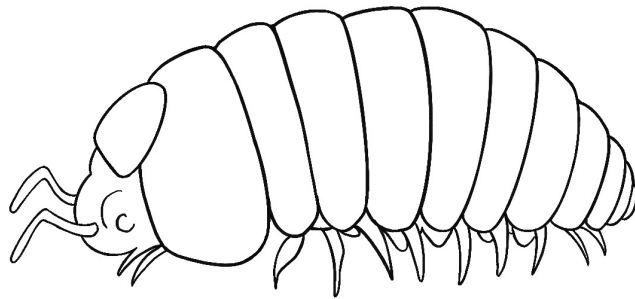

Lesson 9

Cut out the puzzle pieces. Arrange the puzzle correctly.
Color the pieces. Tape or paste the puzzle pieces
together on the top half of this page.

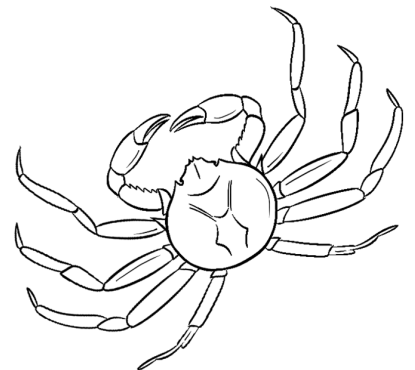

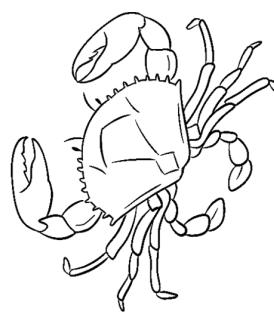

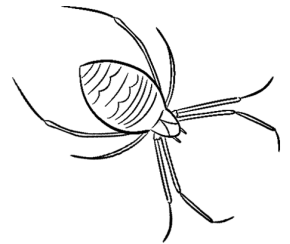

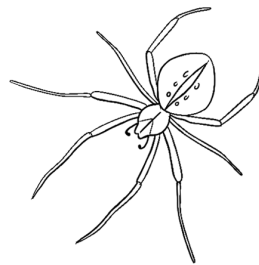

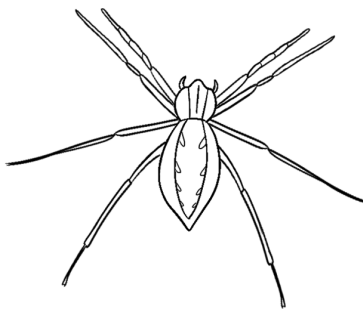

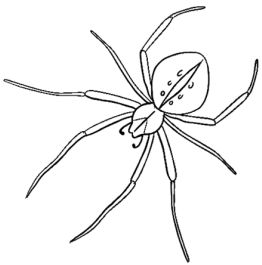

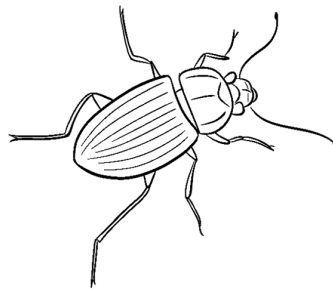

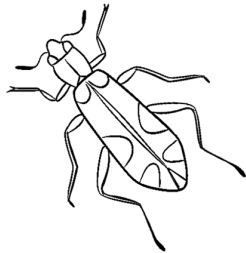

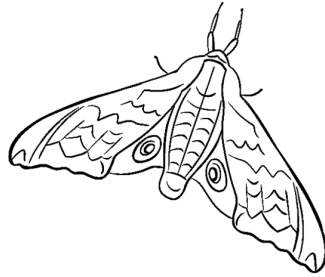

Trace the names of the arthropods
below and color the pictures.

Lesson 10

For each row, circle and color the bug that matches the bug at the beginning of the row.

Cross out the six silly things that do not belong in the picture. Color the picture.
