SPACE SCIENCE

The Good and the Beautiful CURRICULUM

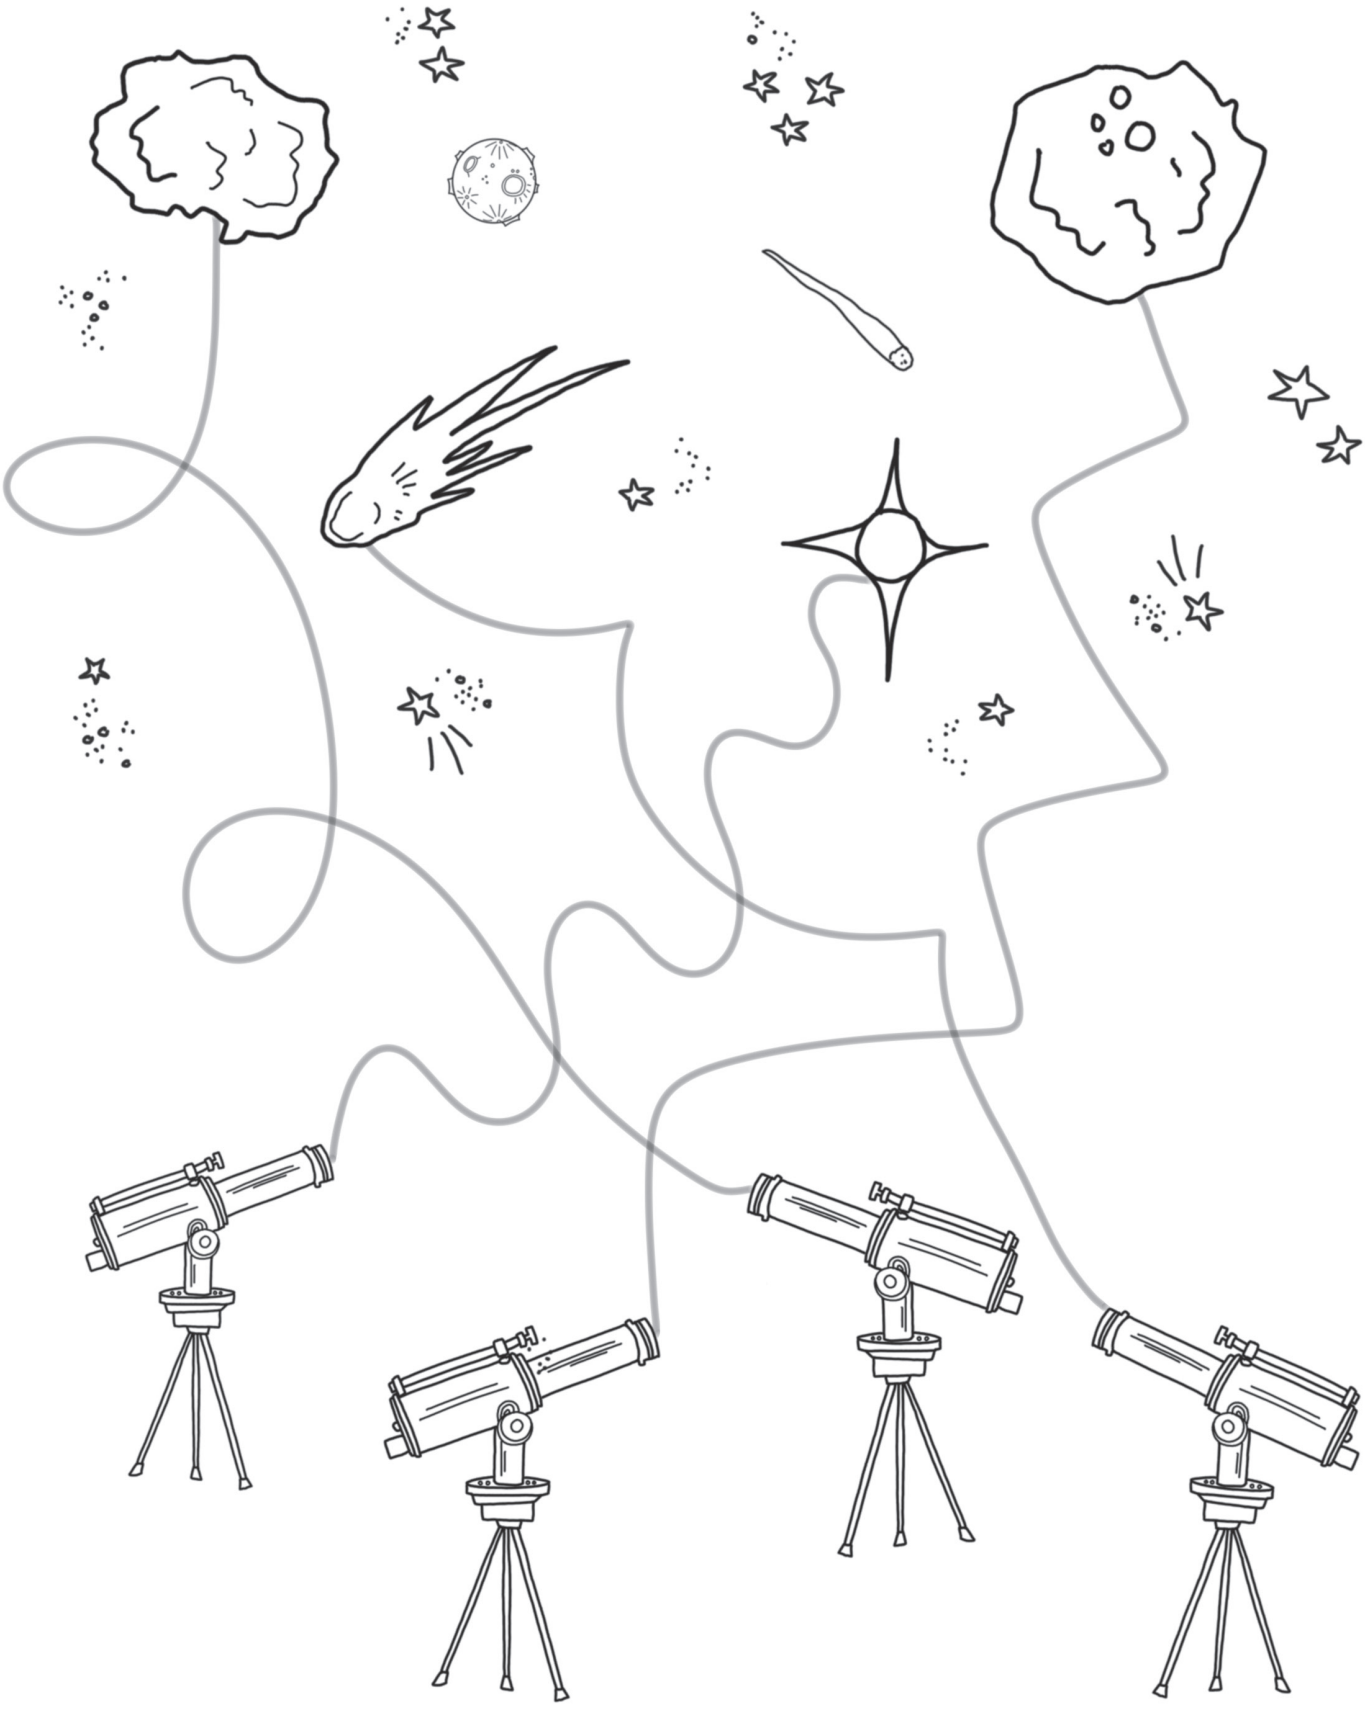

Lesson 1

Cross out the items in the key as you find them in the picture. Color the picture.

© GOOD AND BEAUTIFUL

Trace each line from a telescope to the object it discovered. Color the pictures.

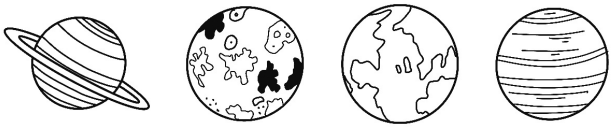

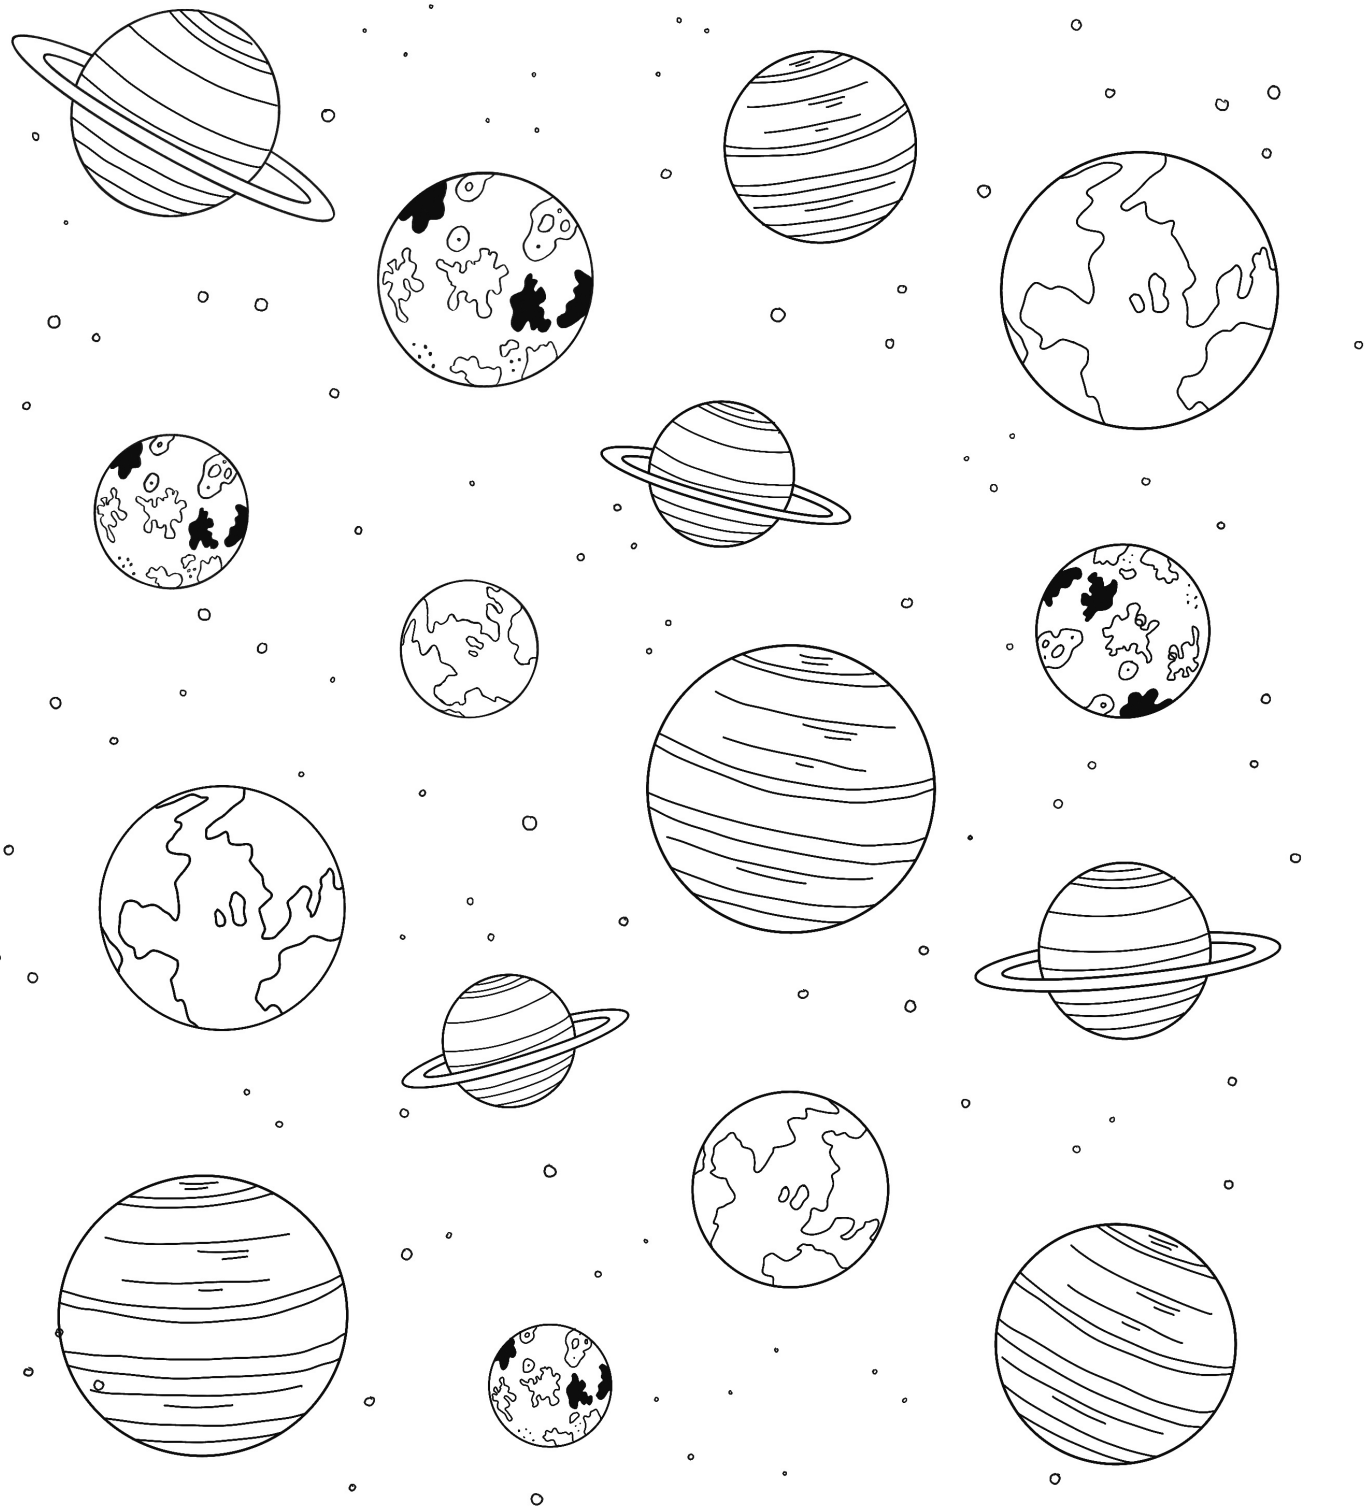

© GOOD AND BEAUTIFUL

Lesson 2

Color each planet in the key a different color. Then find and color all planets on the page the same colors you chose in the key.

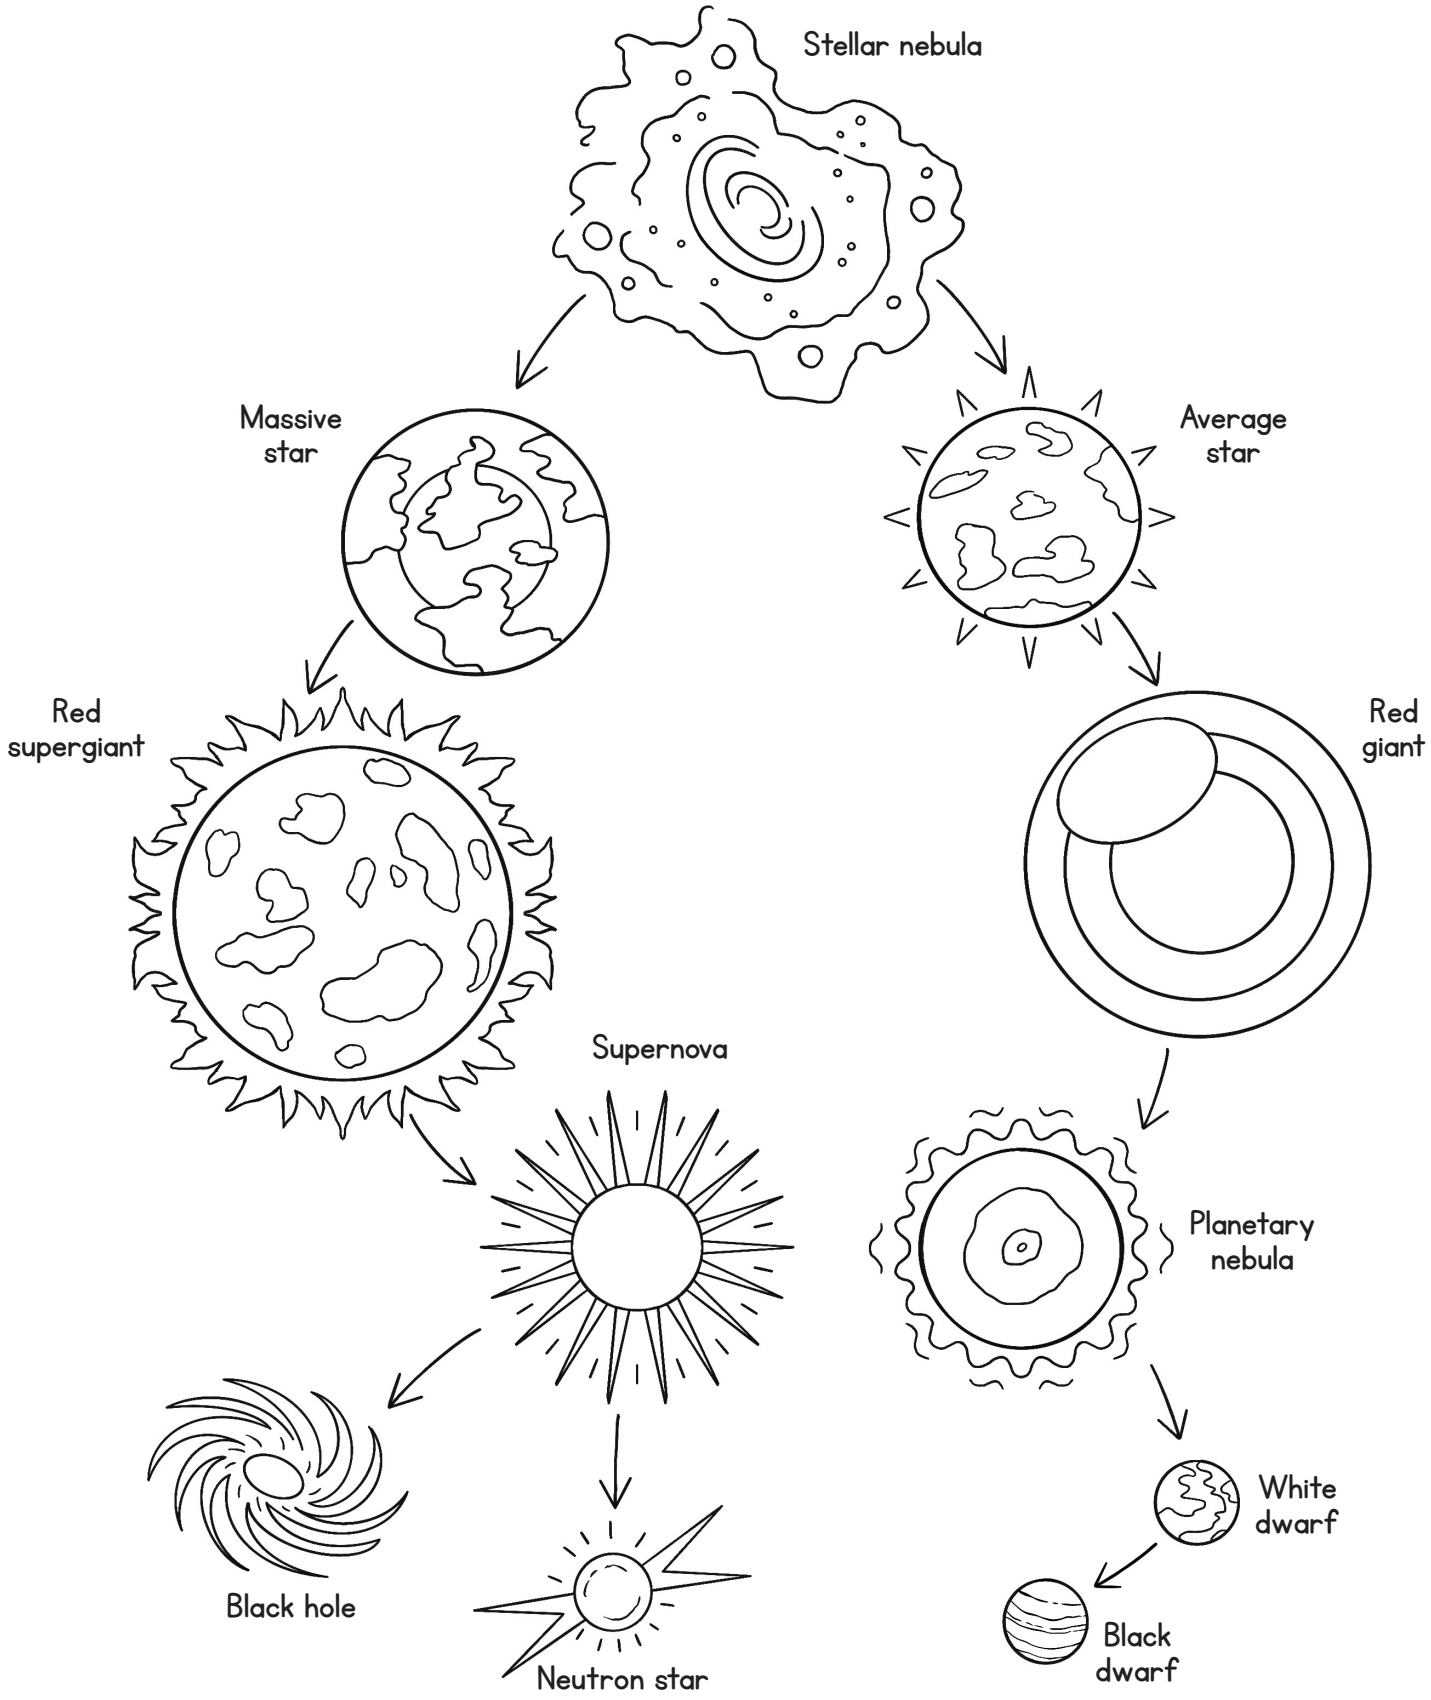

KEY

© GOOD AND BEAUTIFUL

Color the steps of a star's life cycle.

© GOOD AND BEAUTIFUL

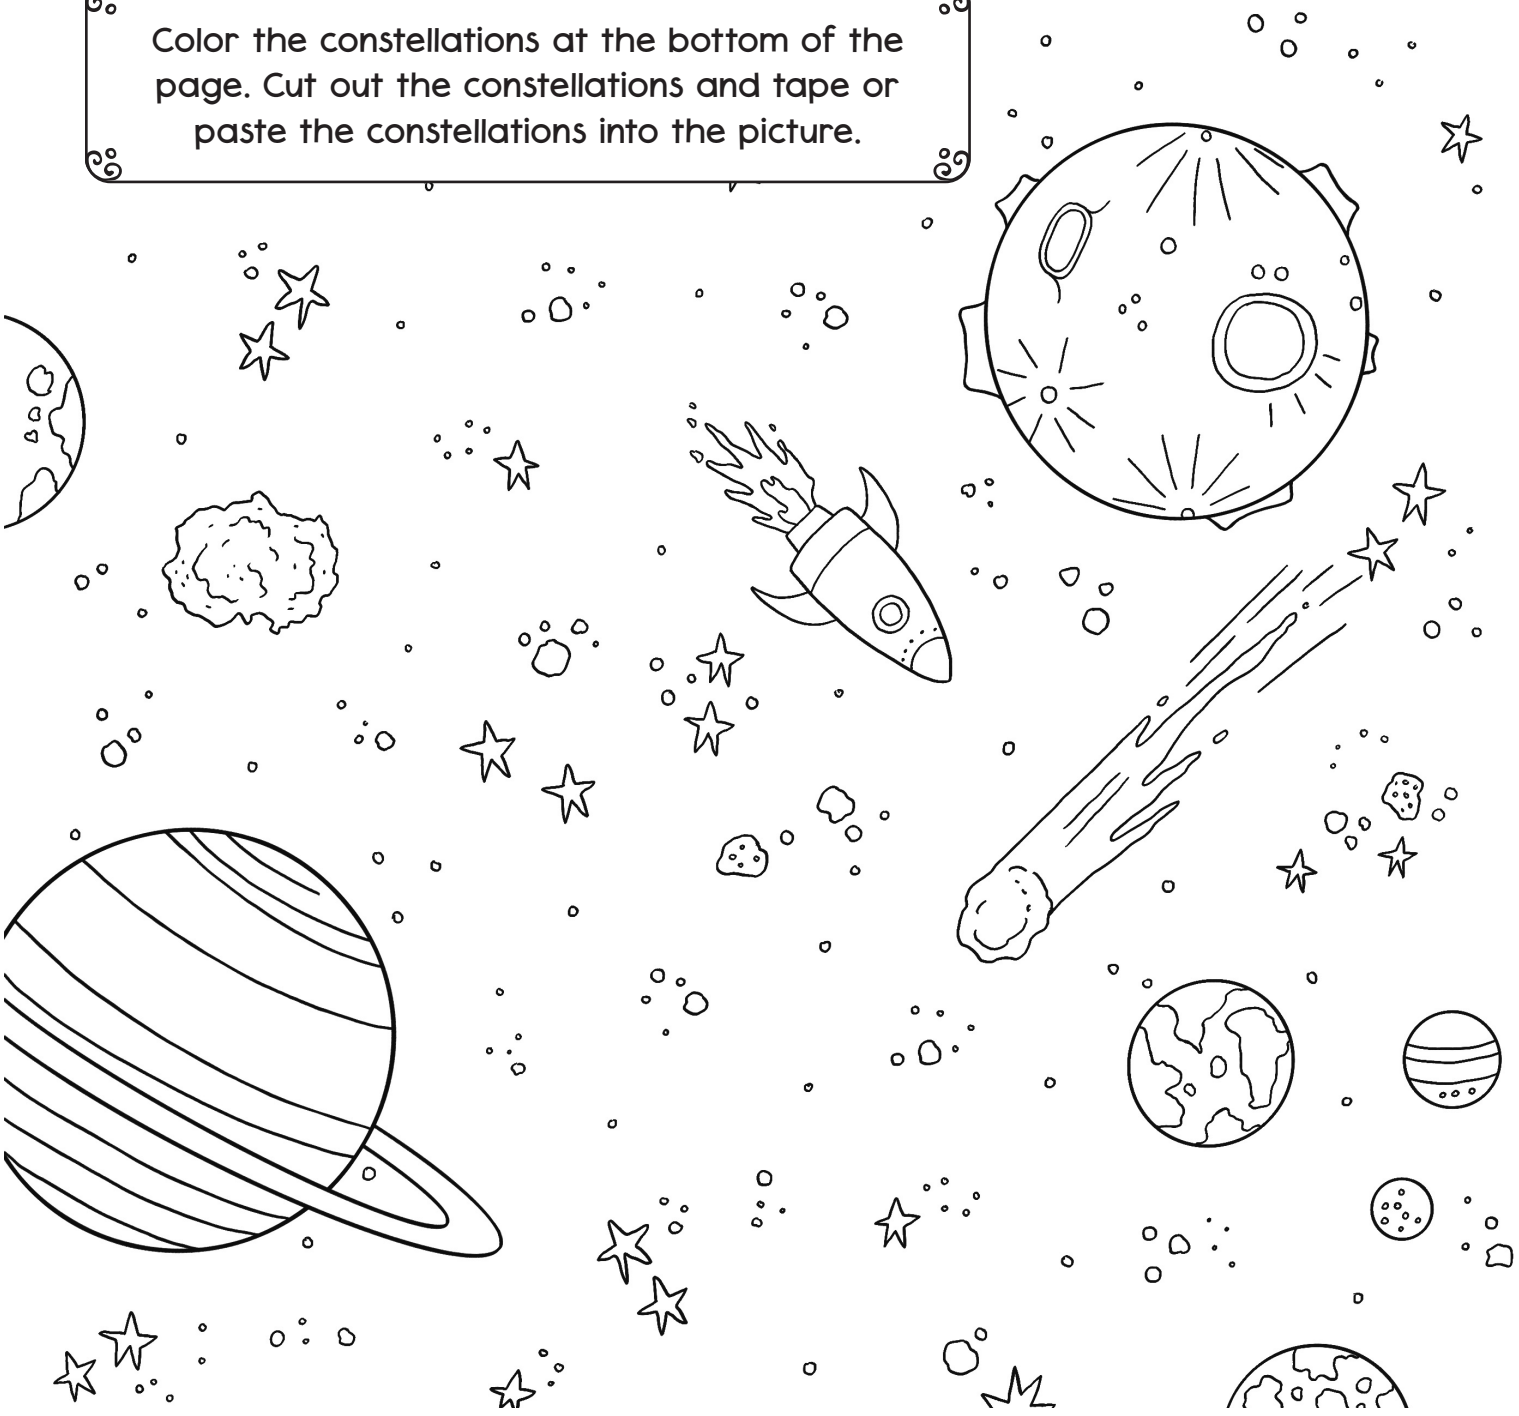

Lesson 3

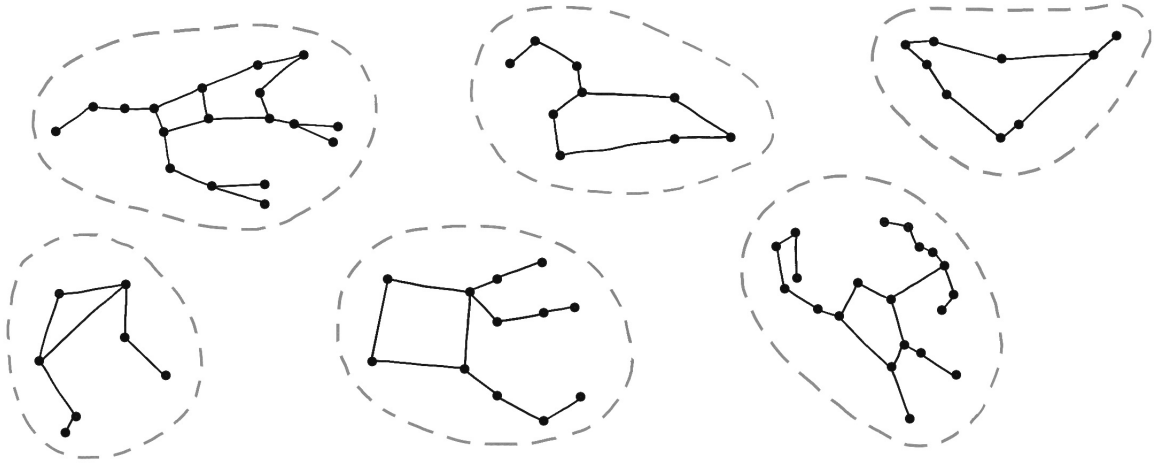

Connect the dots by tracing the lines to create constellations. Color the picture.

© GOOD AND BEAUTIFUL

Color the constellations at the bottom of the page. Cut out the constellations and tape or paste the constellations into the picture.
